Professional Summary

Full-Stack Developer and Business Administrator with 17+ years of experience spanning web development, e-commerce, digital marketing, customer operations, analytics, and UX. Currently lead Shopify Plus development and e-commerce operations across eight Echelon Fitness and Primal Strength storefronts and related sites in the US, Canada, UK, France, and Germany. Build and maintain custom themes, applications, APIs, Shopify Functions, financing and checkout workflows, product data systems, cloud-hosted services, and automation using Liquid, JavaScript, TypeScript, Python, React, Ruby, REST, GraphQL, HTML, and CSS. Experienced in AWS and Linux-based production troubleshooting, SSL/TLS certificate recovery, Nginx, Certbot, geo-location routing, runtime recovery, and deployment validation. Combine technical problem-solving with product, UX, marketing, and operational judgment, with previous B2B account management and distributor e-commerce experience at 3M supporting large-scale product and material catalogs.

Professional Experience

Shopify Web Developer & Product Specialist, *Echelon Fitness & Primal Strength*
05/2026 – Present
Remote - Contractor

- Lead Shopify Plus development and e-commerce operations across eight regional storefronts, managing themes, products, inventory, collections, metafields, apps, QA, Shopify CLI, and production troubleshooting.
- Develop with Liquid, JavaScript, TypeScript, Python, React, Ruby, REST, GraphQL, Shopify Functions, App Extensions, and custom applications.
- Resolve complex product, cart, checkout, shipping, discount, inventory, app integration, companion-SKU, and regional storefront issues.
- Created and maintained metafield systems for memberships, product videos, finance settings, content profiles, regional merchandising, and collection relationships, with conditional rendering when product data is unavailable.
- Architected a reusable UK dynamic equipment template with 17 sections and 10 supporting snippets for product data, memberships, financing, accessories, reviews, video, responsive UX, and cart functionality.
- Built a Rust/WASM Shopify Discount Function for Premier Membership free shipping and implemented companion-SKU logic that automatically adds required screens to compatible equipment orders.
- Restored an AWS-hosted Echelon Coach API after an SSL certificate expiration using Linux, Nginx, Certbot, and Let’s Encrypt, then validated HTTPS recovery and automated renewal. Implemented geo-location routing across regional storefronts.
- Led Echelon Commercial storefront hardening, recovered a production JavaScript runtime failure, validated deployment assets with checksum verification, and built AI-assisted integrations for catalog optimization, reporting, HubSpot, Newpay, Klaviyo, ChargeAfter, Formspree, financing, and fulfillment.
- Authored developer-focused SOPs for integrations, QA, deployment, runtime recovery, validation, troubleshooting, and rollback.

Web Developer / UX / Digital Marketing / SEO, *Grupo Inmarca* 03/2022 – 06/2026
Remote - Freelance

Executed cross-channel digital marketing strategies integrating SEO, SEM, paid ads, content optimization, and brand storytelling. Built full-stack websites, e-commerce platforms, and landing pages with UX/UI improvements and custom code. Managed content production, photography, design, and video editing. Optimized paid campaigns and collaborated with major sports and fashion brands.

Senior Representative - Account Management / Customer Operations, 02/2022 – 07/2026
3M (SIBG & CBG) Remote - Full Time

- Managed 80+ B2B accounts and supported customers working within an effectively unlimited SKU and material environment.
- Supported order processing, distributor e-commerce operations, material listings, product information, and account-specific workflows for B2B customers.
- Used SAP, Mocha, Salesforce, Fiori, BCom, and Adobe Experience to manage customer data, order processes, product and material information, distributor support, and digital account operations.
- Helped customers locate, validate, and use product and material information within large catalog and operational workflows where accuracy and attention to detail were essential.
- Delivered multi-channel support and improved SharePoint documentation, knowledge content, and Power Apps tools. Contributed to training and engagement initiatives through the 5 Star program

UX Designer, *3M* 11/2025 – 01/2026
Remote - Seasonal

Completed a UX design stretch assignment supporting the redesign of key 3M.com pages using the Modular Design System (MDS). Collaborated with the global UX team on research, wireframes, and Figma prototypes. Contributed to documentation and validation to streamline workflows and improve cross-functional alignment.

Founder/ Content Creator / Web Developer, *Hablemos de MMA* 11/2022 – 07/2026
Remote

Built and launched **hablemosdemma.com**, a hostinger CMS website with integrated blog and e-commerce, growing a community of **20K+ followers** through MMA journalism and multimedia content. Produced cross-platform campaigns that increased engagement by **35%** and optimized SEO listings to boost conversions by **25%**. Created flyers, catalogs, videos, and podcasts while managing SEO/SEM, trilingual copywriting, Shopify development, and community growth. Registered the brand as a sports goods retailer in Costa Rica and led photography, interviews, and video production for athlete storytelling.

Data Analyst & Digital Support, *Carvana* 05/2021 – 02/2022
Mexico City, Mexico

Performed data analysis and document verification to improve digital customer experience. Optimized SMS workflows and managed digital assets for consistency and accessibility.

Team Lead - Software Support, *TEK Experts* 01/2012 – 12/2016
San José, Costa Rica

Oversaw software deployment, testing, QA, optimization, and customization for HP asset management solutions. Managed reporting, interviews, payroll, and performance oversight.

Previous experience: 2008 – 2012

Began in 2008 in Customer Service and Tech Support roles.
